ICE AWAY (SODIUM CHLORIDE) (56 BAGS/PALLET)

An effective and cost efficient product used for removing snow and ice from walkways, driveways, and parking lots. Rock Salt is optimally sized for maximum performance and free flowing action. Smaller crystals melt on contact, while larger crystals provide longevity and instant traction. This helps prevent snow and ice from bonding to walkway surfaces or becoming hard packed. Effective to 15°F

DRAGON MELT (SODIUM, MAGNESIUM CHLORIDE BLEND) (56 BAGS/PALLET)

Small uniform granules allow for even applications. **Dragon Melt** includes an organic anti-caking compound. Never deal with clogged spreaders again. Green colored granules also provide a significantly greater source of spread control and less product waste. Green color is water based and will not stain. Effective to -12°F
